31 LEARNING AND CAREER DEVELOPMENT RESOURCES

WWW.GAMIFICATIONNATION.COM

Some are free, some are paid, some you need to apply for.

These are merely suggestions for you to explore and make up your mind if they suit you, we do not endorse any of the programmes nor are we affiliated to any of them, we only created a list to help you find new sources. Of course type your desired new skill into any search engine and you will come up with tons of suggestions too. We just wanted to help you get started.

No chronology, just lots of things to explore and check if anything tickles your fancy to grab a chunk of your time.

All we wanted is that you could learn remotely and upskill while you may have more time.
